Instruction Manual

	Failure to follow these instructions may lead to death or serious injury.
	Failure to follow these instructions may lead to injury.
	Failure to follow these instructions may lead to product damage (product malfunction, etc.).
	Provides additional information on proper operation.
	Indicates useful information or information that aids understanding of text descriptions.

For Safely Using the Product

General precautions

- At startup and during operation, be sure to check that the functions and performance of the N-R2 is operating properly.
- We recommend that you take substantial safety measures to avoid any damage in the event a potential safety occurs.
- If the N-R2 is modified or used in any way other than described in the specifications, its function and performance cannot be guaranteed.
- When the N-R2 is used in combination with other instruments, the function and performance may be effected by operating conditions and the surrounding environment.
- Do not use the N-R2 for the purpose of protecting the human body.
- The information contained in this manual is subject to change without notice.

Notice

When this product is used under the circumstances and operating environments described below, adhere to the limitations of the ratings, take adequate measures to ensure safety such as fail-safe installations and consult a KEVENCE sales representative.

- For use under circumstances or environments which are not described in the manual
- For use with nuclear power control, railway, aircraft, vehicles, incinerators, medical equipment, entertainment equipment, safety devices etc.
- For use in applications where death or serious property damage is possible and extensive safety precautions are required.

For properly using the product

	<ul style="list-style-type: none"> Do not use the N-R2 in an environment subject to flammable, explosive, or corrosive gases. Be sure that all screws are tightened securely. Use crimp contacts of the specified size for wiring. The N-R2 uses a 24 VDC power supply. Using a power supply outside this range or an AC power supply may cause product failure. Do not disassemble or modify the N-R2. This may cause product failure. Locate the cables as far as possible from high-voltage lines and power lines. Otherwise, generated noise may cause product failure or malfunctions. The N-R2 is a precision instrument. If the unit is dropped or shock is applied, it may be damaged. Use caution when unpacking, carrying, and mounting. Be sure to observe all warnings, cautions, and precautions specified in the manual.
---	--

Do not install the N-R2 in the following locations:

- Locations subject to direct sunlight
- Locations where the surrounding air temperature is outside the range of 0 to +50°C or locations subject to condensation as the result of severe changes in temperature
- Locations where the ambient humidity is outside the range of 35 to 85%RH
- Locations subject to corrosive or flammable gases
- Locations subject to dust, salts, iron dust, or oil smoke
- Locations subject to shock or vibration
- Locations subject to exposure of water, oil, or chemicals
- Locations where strong magnetic or electric fields are generated

Foreign Regulations and Standards

UL certification

The N-R2 complies with the following UL/CSA standards and has obtained the UL/CSA certification.

- Applicable standards: UL508, UL60950-1
- UL File No. E207185, E167973
- UL category: NPAQ/NRAQ7, NWGQ2/NWGQ8

Be sure to observe the following installation and environment conditions.

- Pollution degree 2
- Overvoltage category I

Caution - Do not connect directly to the branch circuit. This product must be supplied power by a suitable, approved isolated transformer or power supply not exceeding 200 VA max.

Attention - Ne raccordez pas l'unité directement au circuit de dérivation. Ce produit doit être alimenté par un transformateur adapté, isolé et approuvé ou une alimentation ne dépassant pas 200 VA.

FCC regulations

The N-R2 complies with the following FCC EMI regulations.

- FCC Part 15 Subpart B, Class B digital device

Canada IC (Industry Canada) regulations

The N-R2 complies with the following IC EMI regulations.

- ICES-003, Class B digital apparatus

CE marking

The N-R2 complies with the following essential requirements of the EU Directive.

- EMC Directive (2004/108/EC)

The following harmonized standards are applied to this product in order to confirm the compliance.

- Applicable standards (EM): EN55011, Class A; EN55022, Class B
- Applicable standards (EMS): EN61000-6-2; EN61000-6-1

The length of the communication and power cables should be less than 30 m.
